

TimeCapsure

Tradesmen's Electronic Timecard System!

It's Easier. More Accurate.
Better All Around.

Tradesmen craft professionals and clients nationally have consistently asked for a hassle-free, paperless timecard. We're pleased to launch, **TimeCapsure**, the **Sure Way** to get your time collected hassle-free and get you paid accurately.

The advantages to you are clear:

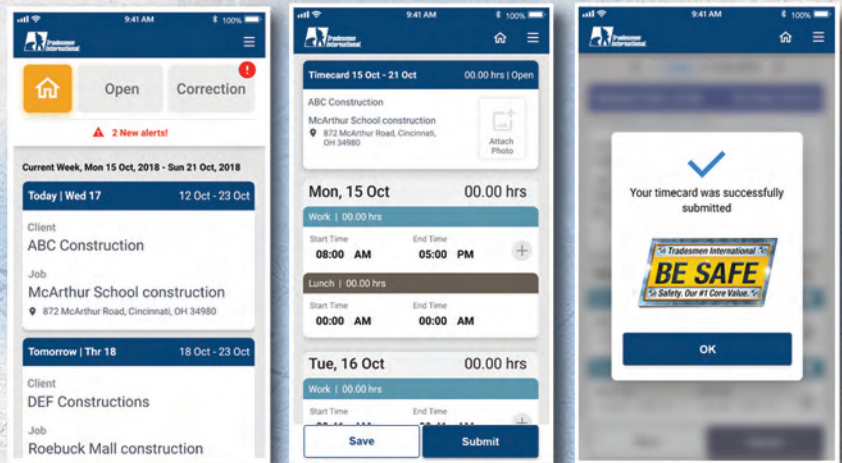

- **Easy to use – No more paper timecards!** Click the link. Log in. Log out. It's as simple as that.

- **Approvals are simple!**

At week's end, your site supervisor can sign the timecard on your device or they can receive via email, the timecard to approve. The approval is sent to Tradesmen's Payroll system with a simple click.

- **The accuracy of your paycheck will improve!**

Any time discrepancies between you and the client will be managed by your Tradesmen field rep; they will work with you and the client to ensure you're paid for the exact hours worked.

TimeCapsure streamlines the timecard process, provides critical assignment information including start/end dates, site name and address, and client contact. The system also gives you access to previous timecards should you need them.

No Smart Phone? You can use any desktop computer including your local Tradesmen office computer to complete your timecard. Don't forget – you can get mobile service and cell phone discounts via Tradesmen's Perks-at-Work!
